

## Kim chống sét Ingesco

### DESCRIPTION

---

ESE system lightning rod, standardized according norm UNE 21.186. Useful for external lightning protection to all type of constructions.

- Norms of applicaton:

UNE 21.185

UNE 21.186

CEI 1024-1

NFC 17.102

UNE 50.164-1

- Central shaft and deflection set made in stainless steel. AISI 316.
- Exciter set: epoxy resine.
- 100% of efficacy in discharge capture.
- High level of protection.
- Electric continuity guaranteed. The device doesn't offer any resistance to discharge conduction.
- It preserves its initial properties after each discharge.
- Not fungible (as it doesn't include electronic elements).
- It doesn't need external power supply.
- Operation guaranteed in any atmospheric condition

Model	Level I	Level II	Level III	Reference
PDC 3.1	25 m	43 m	50 m	101000
PDC 3.3	45 m	65 m	75 m	101001
PDC 4.3	54 m	74 m	85 m	101003
PDC 5.3	63 m	84 m	95 m	101005
PDC 6.3	70 m	92 m	102 m	101008

Protection areas calculated according norm UNE 21.186
